

Protected A (when completed)

Access Administrator Definition:

The access administrator is the contact person who liaises with Alberta Health to register users and request access rights to the department's computer system for the users. The access administrator's responsibilities are outlined in Section B of the Access Administrator Agreement.

Each organization should have a "back up" access administrator. This will alleviate delays for a User ID registration submission when the primary access administrator is unavailable.

Instructions for completion of this form

Section A – the Access Administrator Application – to be completed by the prospective access administrator for an organization. Please note:

Organization Name is the legal name of the organization; for H-Link, this is the accredited submitter's name.

Section B – the Access Administrator Agreement – is a legal document in which the applicant agrees to be an access administrator for the organization, and also agrees that they will comply with the terms and conditions listed.

Section C – the Access Administrator Authorization – should be completed by the organization's custodian after they have reviewed and approved the application and agreement in Sections A and B. If multiple custodians are involved in an organization, each must authorize the appointment of the access administrator by completing and signing Section D. Please note: A Custodian is the physician or owner of the clinic or corporation for H-Link. Any access administrator working for, or on behalf of a custodian, is an affiliate of that custodian under the *Health Information Act* (HIA). Under the HIA, custodians are responsible for any access to, or collection, use, or disclosure of health information by their affiliates and the custodian should ensure appropriate oversight and monitoring of affiliates takes place.

An External User ID Application Access Request form (AHC2209) – to be completed by the newly authorized access administrator in order to gain access to the system and its available applications. Please note: when the access administrator requests a user ID, **Section C of the AHC2209 form must be signed by the organization's custodian(s).**

Send completed forms to Alberta Health via email to health.hlink@gov.ab.ca or via fax to 780-422-7248.

Please note: if this form is being used to delete an access administrator's privileges, expired tokens can be disposed of in the garbage. The expiry date is on the back of the token. To return a token that is no longer required but has not expired, pack it in a bubble style envelope to protect the token and mail it to the address below:

AHS Remote Access Team
CN Tower, 16th floor
10004-104th Ave NW
Edmonton, AB T5J 0K1

Protected A (when completed)

The information on this form is being collected and used by Alberta Health pursuant to section 20(b) of the *Health Information Act* and section 33(c) of the *Freedom of Information and Protection of Privacy Act* solely for the purpose of creating, amending or deleting an Access Administrator. This information will only be disclosed to the authorized Alberta Health staff involved in processing requests.

Section B - Access Administrator Agreement

As an access administrator for H-Link, I agree to:

1. Comply with the access, collection, use and disclosure provisions of the *Health Information Act* as well as with statutory, regulatory and policy requirements.
2. Protect against any loss of or reasonably anticipated threat or hazard to the security or integrity of health information in my possession.
3. Assist the organization's users in completing their User ID Application Access Request form (AHC2209).
4. Collect User ID Application Access Request forms (AHC2209), submit them to Alberta Health upon completion, and retain copies.
5. Identify users no longer requiring access; notify Alberta Health by completing and sending the User ID Application Access Request form (AHC2209) for deletion of user access, and return their hard token to the address noted on page 1.
6. Immediately notify Alberta Health H-Link Administrator if my responsibilities as an administrator are no longer required.
7. Acknowledge that unauthorized disclosure of Organization's H-Link users' information obtained through Alberta Health may result in:
 - penalties as described in relevant legislation;
 - disciplinary action;
 - termination of access administrator role;
 - notification of any inappropriate use to the relevant professional regulatory authorities.

I agree to be the organization's access administrator; have read, understand and agree to comply with the terms and conditions of Alberta Health's H-Link Application.

I understand that I am responsible and accountable for any collection, use and disclosure of health information as outlined by the *Health Information Act*.
